- 1 Select type of control box.
 - Power and Communication Port (3C395)
 - Power and .1 Watt Radio (3B570)
 - Power and .01 Watt Radio (3B575)
- 2 Select cable type.
 - Polyurethane (6E540 or 6E546)
 - HDPE Polyethylene (6E542 or 6E547)
 - Tefzel® (6E544 or 6E548)
- 3 Select Accessories.
 - 2" Well Seal Adaptor (3P902)
 - 4" Well Seal Adaptor (3P904)
 - Cable Strain Relief Kit (6E517)

- 4 Temperature Range: Min: _____ deg C to Max: _____ deg C
- 5 Number of thermistors. _____
(8 max. on 9 cond. cable, 10 max. on 12 cond.)
- 6 Specify distance from control box to first thermistor.
Specify channel label, if INW is entering it. (Extra charge for this)
Note: be sure to allow enough cable for ease in attaching to control box. You may want to order a foot or two extra length and secure the cable to the well head with a strain relief kit, thus affording precise control over distance from well head to first thermistor.

Distance	Channel label		
A _____	_____		
- 7 Specify distance from control box to second and subsequent thermistors.
Specify channel labels, if INW is entering them. (Extra charge for this)

Distance	Channel label	Distance	Channel label
B _____	_____	G _____	_____
C _____	_____	H _____	_____
D _____	_____	I _____	_____
E _____	_____	J _____	_____
F _____	_____		
- 8 The software will reference thermistors from top to bottom. For example, the top thermistor will be channel 1, the next down will be channel 2, etc. If you want your string referenced from bottom to top, please check this box.
 - Reference from bottom to top.
